White Oak	Prefers well drained sites		White Spruce	Prefers well drained sites	

**PLANTING LOCATION**

Municipal Address	Roads	Woodlots	Buildings	Other

**Please provide diagram for plantings:**

**CONDITIONS**

Every effort will be made to inform the landowner in how they can increase the chances of survival and tree growth. It is understood that the survival of individual trees cannot be, and is not, guaranteed.

The applicant agrees to plant the trees adjacent to the road right-of-way. It is the responsibility of the landowner to ensure trees being planted do not in any way interfere with above and below ground utilities. The Trees for Rural Roads Program does not take any responsibility in the long-term care and maintenance of the trees planted under this program.
