OPEN Community Garden

The Province of Ontario has reversed its closure of community gardens. Clarington Community gardens are open for use as long as gardeners follow these restrictions:

- Bring your own gardening tools. There's no sharing.
- Bring sanitizer or wipes to disinfect common touchpoints, such as locks.
- Follow established gardening shifts to ensure physical distancing and prevent crowding.
- If you feel unwell, stay home. You will not be allowed in the garden.
- Limit the number of family members at your plot. If possible, there should be no children or spouses.
- Bring hand sanitizer and practise good hygiene as well as physical distancing.
- Use your best judgment to protect your health and the health of your fellow gardeners.
