

# Why You Should Adopt Cleo

Hello there my name is Abdullah and today I am going to talk to you about why you should adopt this wonderful cat named Cleo. Cleo is a female black and white Domestic Short Hair Cross which is a beautiful breed. She is a 1 year old cat that is spayed and she has been vaccinated and dewormed.

In case you didn't already know, when you adopt Cleo, you're also adopting her sister Abigail too. Abigail and Cleo came in together from a home with many cats. They will need a home together as they are quite bonded. They each spend time independently as well as together but they are stressed when apart for long. Abigail and Cleo are calm cats, and slightly shy, but it doesn't take long for them to warm up to people. Before they arrived at the shelter, they weren't used to getting attention from humans. They seem to like attention, but might need to be reminded after moving to a new home with new humans. But once they remember, they'll be your best friends.

Having a cat like Cleo and Abigail is an opportunity to take on some additional responsibility because there are several jobs you have to do to take care of them everyday. These jobs include cleaning the litter box, refilling their food, giving them treats, etc. These cats are made for a family with or without children and can teach your kids responsibility and many more life skills. I speak from experience because I have 2 cats. I was a very unorganized person but after I got a cat I became organized due to the job I had to take care

of every day. If you think you need some organization or responsibility these cats are perfect for you and your family.

Cats don't only help you with life skills but they also help with your mental health. Many studies have shown that pets like cats and dogs are a great way to reduce loneliness, depression, and stress. I can speak from experience because whenever I'm not well My cats cuddle and make me feel better. Before I got my cats, I thought that they mind their own business but I was wrong because they are the cuddliest pets in the world. Also Cleo and Abigail are very cuddly so they will always make you feel better.

They call it cat nap for a reason. Many studies have shown that having your cat sleep in your room or beside you will help your sleep quality. According to heathline having your cat sleep and cuddle with will help you sleep faster. Experts say being aware of the risks that can come from sharing your beds with cats can help you avoid health hazards. You're in a great position because having two cats like Cleo and Abigail is great because they are very cuddly so they will always sleep beside you to sleep faster and quicker.

If you ever thought about getting a cat or if you have not I surely hope this helped you with the idea of getting a cat. These two cats are wonderful and great to you, so I hope you adopt these beautiful cats.
