

Recreational **outdoor** **fires** in Clarington

Keep it safe, cozy and compliant

Buyer's Tip:

If you have a larger property that can keep a 7.5-metre safe zone radius, make sure you choose an approved outdoor fireplace:

Made of non-combustible materials, such as steel

A vent or chimney for airflow

Chamber to contain fire

Permanent spark screen to prevent sparks from flying out

Fully enclosed on all sides

Portable or fixed appliance

Keep a hose nearby with the valve open; fully extinguish the fire before leaving
