

School Crossing Guards

With students returning to school on September 8, 2020, the Municipality has established some COVID-19 safety protocols for our Crossing Guards. These new rules are in place to keep the Crossing Guards, children and their families safe.

Masks

Masks are encouraged even outdoors when physical distancing cannot be achieved. Non-medical masks will be supplied to Crossing Guards.

Gloves

Disposable gloves will be supplied to Crossing Guards in contact with high-touch surfaces such as pedestrian call buttons.

Signs

Signs will be installed on the ground at every crossing to ensure physical distancing. Children will be reminded to distance and follow all signs.

Screening

Crossing Guards are asked to self-screen before going to work for any COVID-19 symptoms following the local Health Unit checklist. Any person displaying symptoms of COVID-19 will remain home and follow all Public Health protocols.
